**More than 50% of
Torontonians
choose condominiums
over other forms of
housing**

Condo living differs from other forms of housing.

Most condo dwellers reside in large buildings or complexes. Maintaining these properties differs from maintaining a house. Condo boards and management require vendors with experience and expertise servicing condo and high-rise properties. Condo residents, both tenants and owners, require vendors with experience in the condo marketplace.

Condo Resource Guide is Toronto's #1 source for the Condo Professionals you need! It is used by condo management, directors and residents in need of products or services.

[View](#) Condo Resource Guide in magazine format which can also be printed, or download it for access on your computer. It can be posted on your condo building web site or condo management software for residents to access. Use Condo Resource Guide [eSearch](#) by entering any search term or company name in the search bar, or selecting one of its' 90+ categories.

Condo Resource Guide is published annually. To be included in the guide, contact Toronto Condo News at www.TOcondonews.com, TOcondonews@gmail.com or (416)721-8247 and request the Toronto Condo News Media Kit.
